BOARD INFINITY

Developing The Paid Adv and Financial Strategy.

Board Infinity Paid Advertising Strategy & Financial Model

PROJECT BY: MOHAMMAD MAAZ ANSARI

Week 5-6

TASK: 1

Paid Search Ad Keyword Planning & Grouping

Build a high-converting Google Ads search keyword architecture to target professionals ready to invest in a data analytics career transition program, while filtering out low-intent and irrelevant traffic.

1. Keyword Intent Strategy & Match Type Architecture

To maximize Return on Ad Spend (ROAS), keywords are structured across three strategic match types:

❑ Exact Match [keyword]

Used for ultra-high-intent search queries to capture users ready to enroll.

❑ Phrase Match “keyword”

Captures variations, typos, and specific search flows while maintaining context.

❑ Broad Match (with Smart Bidding)

Kept minimal or paired with negative keyword guardrails to catch emerging semantic searches.

2. High-Converting Intent Keyword Groups

3 Groups of High-Intent Keywords Contains (BoFu/Transactional), (MoFu/Commercial), (SQL/Tools Focus).

❑ Ad Group 1: Data Analytics Bootcamp & Certification

(Bottom-of-Funnel / Transactional)

Targeting users actively looking to enroll in a professional program.

- [data analytics certification course]
- "best data analytics bootcamp for working professionals"
- [data analyst training with placement support]
- "data analytics course for non tech background"
- [learn data analytics online with certificate]

❑ Ad Group 2: Career Switch & Transition Intent
(Middle-of-Funnel / Commercial)

Targeting professionals like Aarav looking for a career change path.

- "how to switch from non tech to data analyst"
- [data analytics career transition program]
- "can a b.com graduate become a data analyst"
- [data analyst salary and career scope 2026]
- "jobs for data analysts with zero experience"

❑ Ad Group 3: Skill-Specific Training Intent
(SQL & Tools Focus)

Targeting users searching for foundational tools required for the switch.

- [sql for data analytics certification]
- "power bi training course for beginners"
- [data analytics tools course online]

3. Negative Keyword List (Budget Protection)

To prevent ad budget wastage on free seekers, students looking for college degrees, or irrelevant queries.

Negative Keyword	Match Type	Reason for Exclusion
free	**Phrase / Broad**	Filters out users looking for free YouTube tutorials or pirated material.
pdf / ebook	**Exact / Phrase**	Blocks users looking for downloadable notes rather than paid courses.
internship / intern	**Phrase**	Excludes students looking for free/low-paying internships instead of career transition programs.
btech / bsc computer science	**Phrase**	Filters out engineering students who aren't the target "non-tech" demographic.
python game / coding	**Phrase**	Prevents traffic from software development or gaming enthusiasts.
salary slip / resume format	**Phrase**	Filters out job seekers searching for HR documents rather than upskilling courses.

TASK: 2

Performance Marketing Strategy & Google Search Campaign Setup

A targeted Google Search Ads strategy designed to drive qualified leads by capturing high-intent non-tech working professionals through optimized keywords, compelling RSA ad copy, and integrated lead assets.

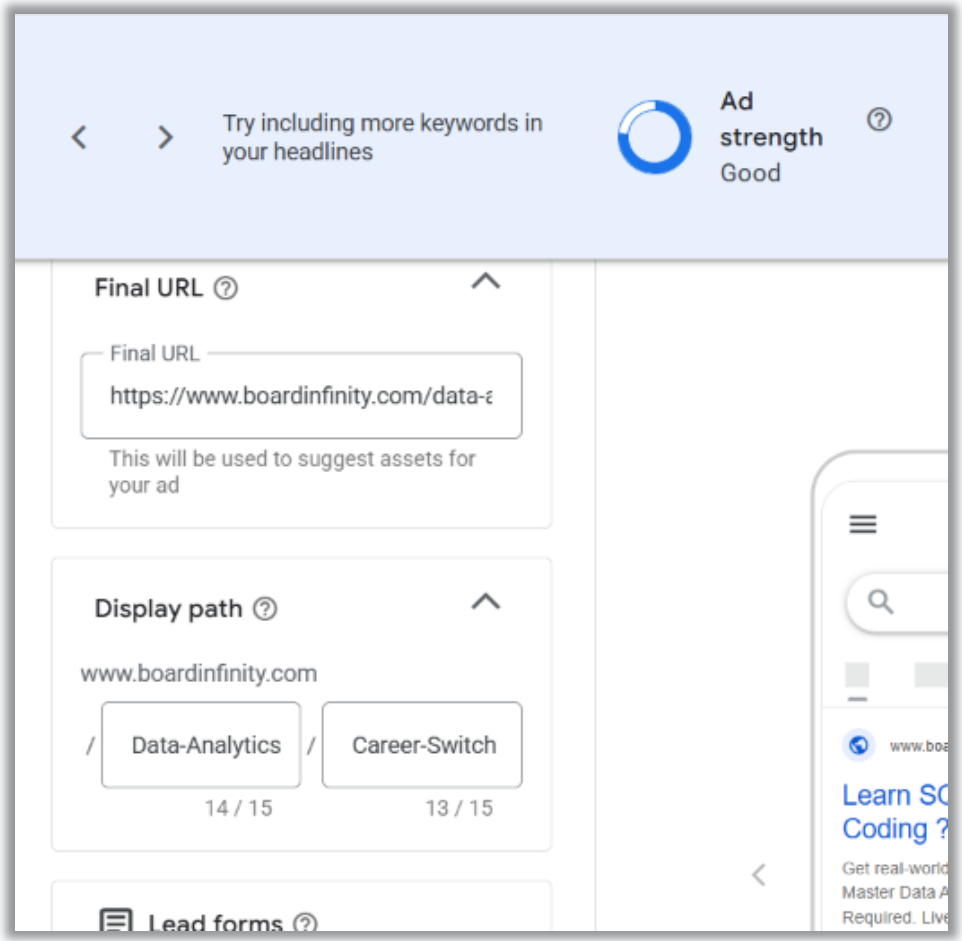

1. Ad Headline & Description Structure

❑ Final URL

[https://www.boardinfinity.com/data-analytics-course]

❑ Display Path

Data-Analytics / Career-Switch

2. Headlines (Max 30 Character Each)

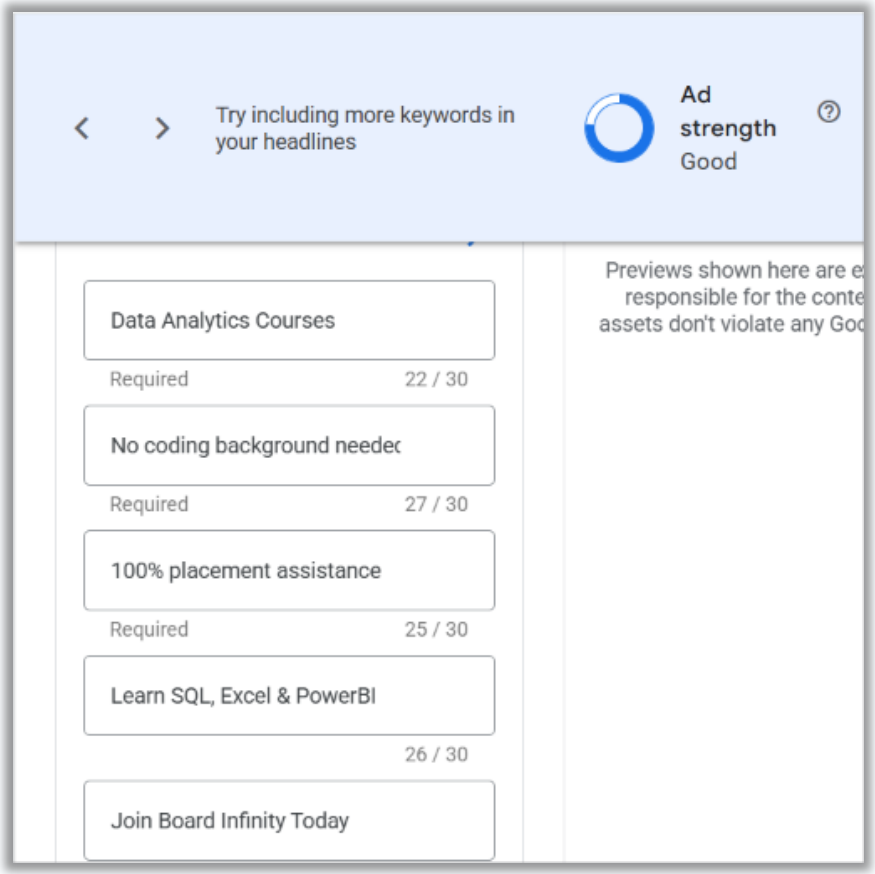

- **Headline 1:**
Data Analytics Course ***(Focus Keyword)***

- **Headline 2:**
No Coding Background Needed ***(Addresses Pain Point / Non-Tech)***

- **Headline 3:**
100% Placement Assistance ***(Value / Outcome)***

- **Headline 4:**
Learn SQL, Excel & PowerBI ***(Core Stack)***

- **Headline 5:**
Join Board Infinity Today ***(Brand / CTA)***

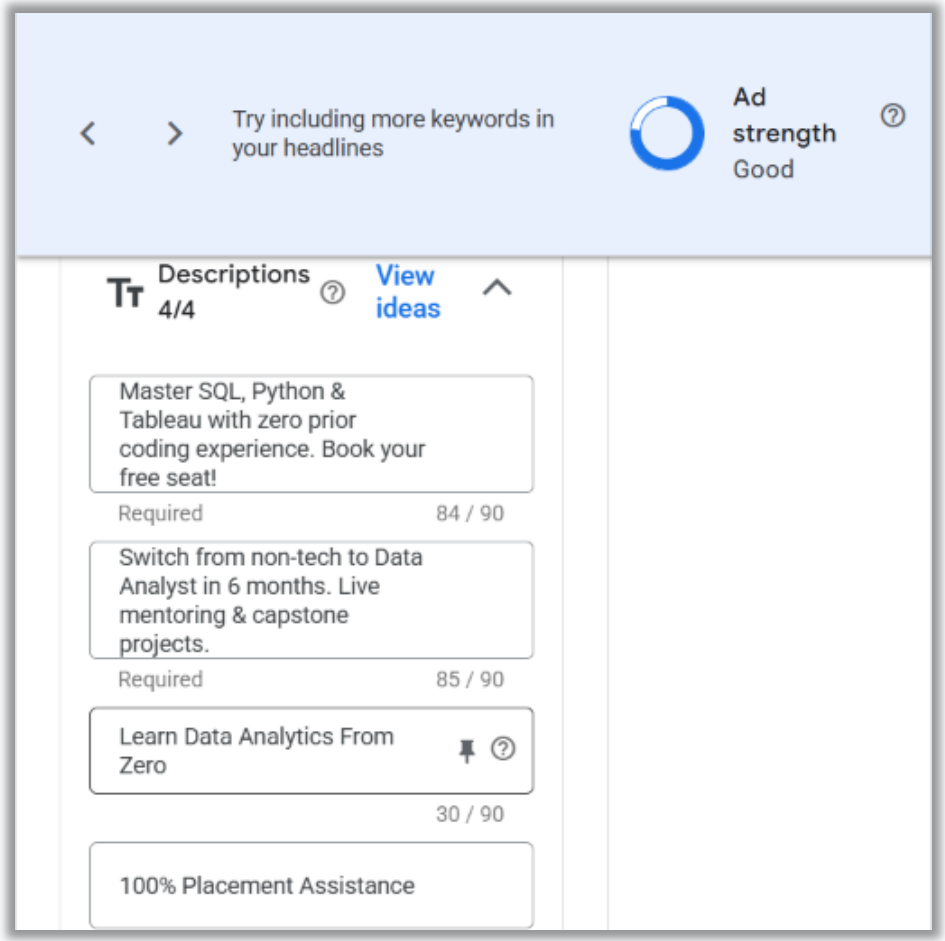

3. Descriptions (Max 90 Characters Each)

- **Description 1:**

Switch from non-tech to Data Analyst in 6 months. Live mentoring & capstone projects.

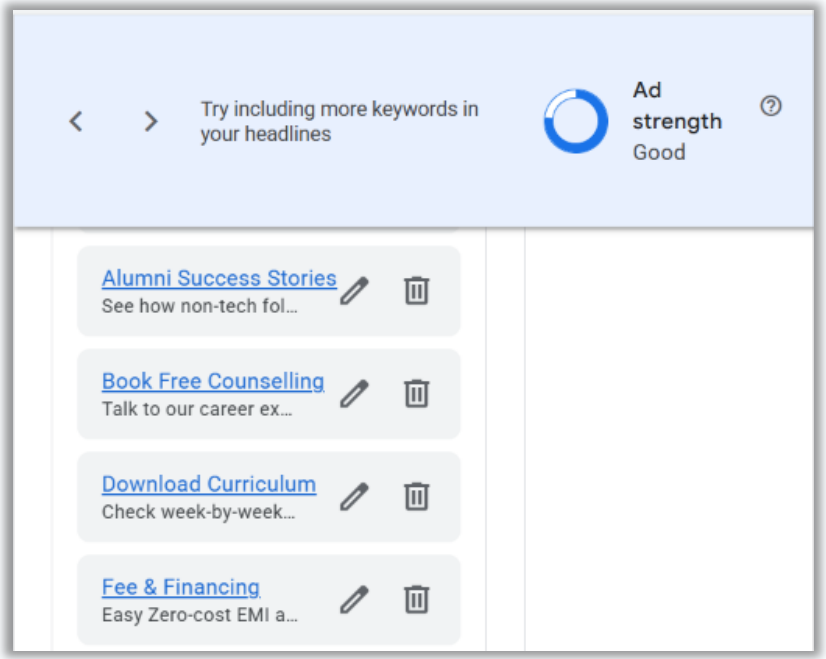

- **Description 2:**

Master SQL, Python & Tableau with zero prior coding experience. Book your free seat!

4. Headlines (Max 30 Character Each)

- **Sitelink 1:**
  - ***Link Text:*** Download Curriculum
  - ***Description Line 1:*** Check week-by-week modules.
  - ***Description Line 2:*** SQL, PowerBI & AI tools.
  - ***Final URL:*** https://www.boardinfinity.com/data-analytics-course
- **Sitelink 2:**
  - ***Link Text:*** Alumni Success Stories
  - ***Description Line 1:*** See how non-tech folks
  - ***Description Line 2:*** landed 140% salary hikes.
  - ***Final URL:*** https://www.boardinfinity.com/reviews
- **Sitelink 3:**
  - ***Link Text:*** Fee & Financing Options
  - ***Description Line 1:*** Easy EMI options available.
  - ***Description Line 2:*** Zero cost EMI starting soon.
  - ***Final URL:*** https://www.boardinfinity.com/data-analytics-course
- **Sitelink 4:**
  - ***Link Text:*** Book Free Counselling
  - ***Description Line 1:*** Talk to our career experts
  - ***Description Line 2:*** Get your roadmap customized.
  - ***Final URL:*** https://www.boardinfinity.com/contact-us

TASK: 3

Competitor Analysis & Meta Retargeting Strategy

Board Infinity | Meta Ads Library Audit & Custom Carousel Retargeting Framework

1. Meta Ads Library Competitor Creative Analysis

Audit: *PW Skills vs. Upgrad*

❑ PW Skills

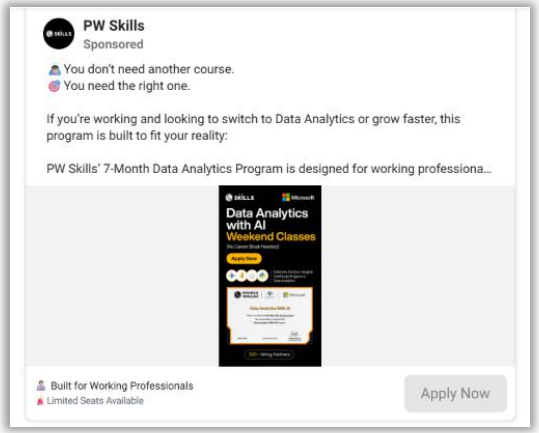

Working Pro Focus

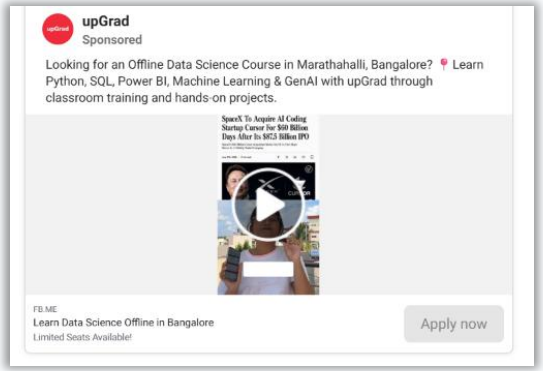

- **Hook:** *"You don't need another course. You need the right one."*
- **Primary Angle:** Relatability & No-career-break promise targeting 9-to-5 working professionals.
- **USPs Highlighted:** Weekend classes, 7-month structure, Microsoft partnership badge & 350+ hiring partners.
- **CTA & Format:** Apply Now | Single Image Ad with Certificate & Tool Badges.

❑ Upgrad

Hyper-Local Geo Angle

- **Hook:** *"Looking for an Offline Data Science Course in Marathahalli, Bangalore?"*
- **Primary Angle:** Localized geo-targeting targeting high-density IT hubs for classroom bootcamps.
- **USPs Highlighted:** Physical hub location, Python, SQL, Power BI, GenAI, and hands-on projects.
- **CTA & Format:** Apply Now | Video ad paired with industry news backdrop.

Strategic Gap Analysis & Opportunity for Board Infinity:

While competitors focus heavily on broad working professional hooks ("Weekend Classes") or hyper-local offline setups ("Bangalore Hubs"), there is a clear creative gap in addressing non-tech switchers' primary psychological fear—**"Can I learn coding?"**. Board Infinity's retargeting strategy directly bridges this gap using sequential 5-card carousels that prove transition feasibility step-by-step.

2. Retargeting Audience & Campaign Objectives

Strategy Dimension	Board Infinity Retargeting Specifications
Target Audience	Custom Audience: Website visitors from Google Search Ads / landing page within last 30 days.
Persona Focus	Aarav (Non-tech working professional in Sales/Support aiming for a Data Analyst switch).
Primary Objective	Overcome career switch hesitation, prove non-tech feasibility, and drive final course enrollment.
Ad Format Selection	Meta Multi-Card Carousel Ads (1080x1080px Square) for sequential storytelling.

3. Carousel Concept 1: Career Switch Roadmap & Proof

Focus: *Overcoming Fear & Trust*

- **Target Segment:** Recent website abandoners who hesitated due to coding fear or placement doubts.
- **Primary Caption:** "Visited our Data Analytics page? You are just 6 months away from your dream non-tech to tech transition! Learn SQL, Power BI & Python with 1-on-1 live mentorship and dedicated placement support. Seats filling fast!"
- **Default CTA Button:** **Apply Now**

CARD 1	CARD 2	CARD 3	CARD 4	CARD 5
🎯 Still Thinking About Data Analytics?	🗺️ 6-Month Structured Roadmap	📈 Sales Exec ➔ Data Analyst	💼 300+ Hiring Partners	🎁 Free Career Counselling
Zero Coding Needed Master SQL, Power BI & Excel completely from scratch.	**Built For Working Pros** Live weekend classes that fit into your 9-to-5 schedule.	**Real Alumni Success** See how 1,000+ non-tech learners successfully switched.	**100% Placement Drive** Resume building, mock interviews & direct hiring calls.	**Claim Free Roadmap** Book a 1-on-1 session with a senior industry mentor today.
Apply Now	Apply Now	Apply Now	Apply Now	Apply Now

Card-by-Card Strategic Rationale

Card #	Visual Hook & Element	Psychological Objective
Card 1 & 2	Working pro at laptop + 6-Month Roadmap Infographic	Removes fear of prerequisite coding knowledge and proves schedule feasibility.
Card 3 & 4	Alumni transition badge + Top partner company logos	Builds credibility through social proof and guarantees placement infrastructure.
Card 5	Free counselling badge & scholarship trigger	Provides a low-friction action step for leads who need 1-on-1 reassurance.

4. Carousel Concept 2: Tool Mastery & Capstone Spotlight

Focus: *Practical Skills & Projects*

- **Target Segment:** Visitors seeking technical curriculum depth, tool breakdown, and fee options.
- **Primary Caption:** "Don't just learn theory—build industry-grade projects! Master the exact tools top companies look for: SQL, Power BI, Python & Tableau. Download the curriculum & talk to our career guide."
- **Default CTA Button:** **Learn More**

CARD 1	CARD 2	CARD 3	CARD 4	CARD 5
🛠️ SQL • Power BI • Python	📊 Real Business Dashboards	👩‍🏫 Live 1-on-1 Mentorship	📄 Detailed Syllabus PDF	💳 EMI From ₹3,500/month
Master Top Tech Tools Practical, hands-on tool training starting from Day 1.	**Build 5+ Capstones** Solve live business problems & build a strong portfolio.	**Top Industry Experts** Get personalized feedback & clear doubts in real-time.	**Download Curriculum** Review full week-by-week module breakdown.	**Flexible Fee Options** Zero-cost EMI plans available to ease your investment.
Learn More	Learn more	Learn More	Learn More	Learn More

5. Retargeting Strategy Comparison Matrix

Strategy Parameter	Concept 1 (Proof & Transition)	Concept 2 (Tools & Capstones)
Primary Focus	Career switch fear & placement proof	Practical skills, tool mastery & projects
Core Value Hook	"Zero coding background needed"	"Build 5+ live capstone dashboards"
Primary CTA	**Apply Now**	**Learn More / Download**
Target Audience State	Hesitant / High-doubt leads requiring trust	Analytical / Information-seeking leads

TASK: 4

Paid Media Budget Model & Strategy

Strategic allocation of ₹1,00,000 across Search, Meta, and LinkedIn for Data Analytics lead acquisition.

1. Executive Summary & Key Targets

CAMPAIGN PERFORMANCE OVERVIEW

TOTAL BUDGET	EST. RAW LEADS	BLENDED CPL	PROJECTED ROAS
₹1,00,000	177	₹565	3.45x
3 Channel Split	High Intent Capture	Cost Per lead	₹3.4L Revenue

2. Paid Media Budget Breakdown

MEDIA MODEL DYNAMICS

Channel	Share	Budget (₹)	Avg. CPC	Conv. Rate	Est. Leads	Est. CPL
Google Search	50%	₹50,000	₹45.00	8.0%	89	₹563
Meta Ads (FB/IG)	30%	₹30,000	₹22.00	5.5%	75	₹400
LinkedIn Ads	20%	₹20,000	₹110.00	7.0%	13	₹1,538
Blended / Total	**100%**	**₹1,00,000**	**₹37.62**	**6.7%**	**177**	**₹565**

3. Strategic Channel Objectives

CHANNEL ROLES

Google Search (50%)

High-intent transactional capture targeting direct queries for Data Analytics certification courses.

Meta Ads (30%)

Mid-funnel retargeting and lookalike audience reach to drive cost-efficient lead volume.

LinkedIn Ads (30%)

Precision targeting for career-switchers currently working in non-tech professional roles.

4. Conversation Funnel & Revenue Projection

FUNNEL ARCHITECTURE

STAGE 1

177

Raw Leads

100% Traffic Capture

STAGE 2

115

Qualified MQLs

65% Qualification Rate

STAGE 3

46

Demo / Counselling

40% Attendance Rate

FINAL STAGE

~7

Paid Enrollments

15% Conversation Win Rate

TASK: 5

Master ROI Forecast & Projected Campaign KPIs

Project campaign KPIs: calculate target Cost-Per-Lead (CPL), CTR, and ROI projections.

1. Campaign KPI Summary Table

Channel / Metric	Budget Share	Budget (₹)	Target CTR	Est. Clicks	Est. Leads	Target CPL	Landing Page Conv. %
Google Search Ads	50%	₹50,000	**6.5%**	1,111	**89**	**₹563**	8.0%
Meta Ads (FB/IG)	30%	₹30,000	**1.8%**	1,364	**75**	**₹400**	5.5%
LinkedIn Ads	20%	₹20,000	**0.9%**	182	**13**	**₹1,538**	7.0%
Blended / Total	**100%**	**₹1,00,000**	**3.07%**	**2,651**	**177**	**₹565**	**6.7%**

GROSS REVENUE

₹3,45,150

7 Enrollments @ ₹50k

NET PROFIT

₹2,45,150

Revenue – Ad Spend

ROAS MULTIPLES

3.45x

Gross Revenue/Spend

NET ROI %

245.15%

Net Return On Spend

2. Downstream Sales Funnel and Financial ROI Model

Funnel Metric / Financial Stage	Target Conversion Rate / Metric	Projected Value	Formulas & Strategic Rationale
Raw Leads Captured	Paid Media Channels Combined	**177 Leads**	Google Search (89) + Meta (75) + LinkedIn (13)
Marketing Qualified Leads (MQLs)	**65.0%** MQL Rate	**115 MQLs**	Leads matching target persona (Aarav - Non-tech working pro)
Counseling / Demo Attendees	**40.0%** Demo Rate	**46 Attendees**	Attended 1-on-1 counseling or live weekend roadmap demo
Paid Student Enrollments	**15.0%** Win Rate	**6.9 (~7 Students)**	Enrolled students paying tuition fee for Data Analytics course
Course Tuition Fee	Benchmark Course Price	**₹50,000**	Standard 6-Month Board Infinity Data Analytics Bootcamp fee

Funnel Metric / Financial Stage	Target Conversion Rate / Metric	Projected Value	Formulas & Strategic Rationale
Gross Tuition Revenue	Enrollments × Course Fee	**₹3,45,150**	Total gross tuition revenue generated from ₹1,00,000 budget
Total Media Ad Spend	Budget Allocation	**₹1,00,000**	Total paid media budget allocated across Search, Meta & LinkedIn
Net Profit / Margin	Gross Revenue - Ad Spend	**₹2,45,150**	Net contribution before instructor & operational costs
Gross ROAS (Return on Ad Spend)	Gross Revenue / Ad Spend	**3.45x**	Industry Standard Target: **2.5x – 4.0x**
Net ROI %	(Net Profit / Ad Spend) × 100	**245.15%**	Net return percentage on paid ad investment
Customer Acquisition Cost (CAC)	Total Spend / Enrollments	**₹14,486**	Total marketing cost to acquire 1 paying student

Thank You
