BOARD INFINITY

Measurement, Reporting & Presentation

Board Infinity Analytics Setup, Reporting Deck & Portfolio Deck

PROJECT BY: MOHAMMAD MAAZ ANSARI

Week 9-10

TASK: 1

GA4 Tracking Architecture & Funnel Mapping

Map out Google Analytics 4 (GA4) custom events, conversion goals, and user funnel stages across the non-tech career switcher journey.

🔗 GA4 Event Mapping Spec Sheet: Click Here

GA4 User Funnel Stages Mapping

FUNNEL JOURNEY *4-Stage Pipeline*

STAGE 1: ToFu

Awareness

Visitor arrives via organic or paid campaigns.

Events: *page_view, session_start*

STAGE 2: MoFu

Consideration

Interacts with syllabus accordions & quiz.

Events: *quiz_start, content_engagement*

STAGE 3: BoFu

Conversion

Submits form or clicks checkout button.

Events: *generate_lead, conversion_intent*

STAGE 4: Retention

Enrollment

Completes payment or mentor consultation.

Events: *purchase, booking_success*

GA4 Custom Events & Conversion Goals

EVENT ARCHITECTURE ***GA4 Configuration***

GA4 Event Name	Trigger Description	Marked as Conversion?	Key Parameters Tracked
page_view	User lands on course page	❌ **No (Standard)**	*page_path, page_title*
cta_click	Clicks hero or secondary CTA	❌ **No (Engagement)**	*cta_text, cta_location*
generate_lead	Submits curriculum lead form	✅ **Yes (Primary Goal)**	*form_id, form_name*
file_download	Downloads syllabus PDF	✅ **Yes (Micro-Goal)**	*file_name, file_type*
conversion_intent	Clicks sticky "Enroll Now"	✅ **Yes (Checkout Intent)**	*button_name, cohort_name*
page_view	User lands on course page	❌ **No (Standard)**	*page_path, page_title*

TASK: 2

Executive Paid Acquisition & Lead Velocity Dashboard

Designing an executive dashboard wireframe in Looker Studio tracking traffic, lead velocity, and CPL.

1. Executive Summary & Objective

This report presents the consolidated executive analytics dashboard configured in Looker Studio. The primary objective is to evaluate marketing performance, monitor audience acquisition velocity, analyze conversion efficiency, and track campaign acquisition costs.

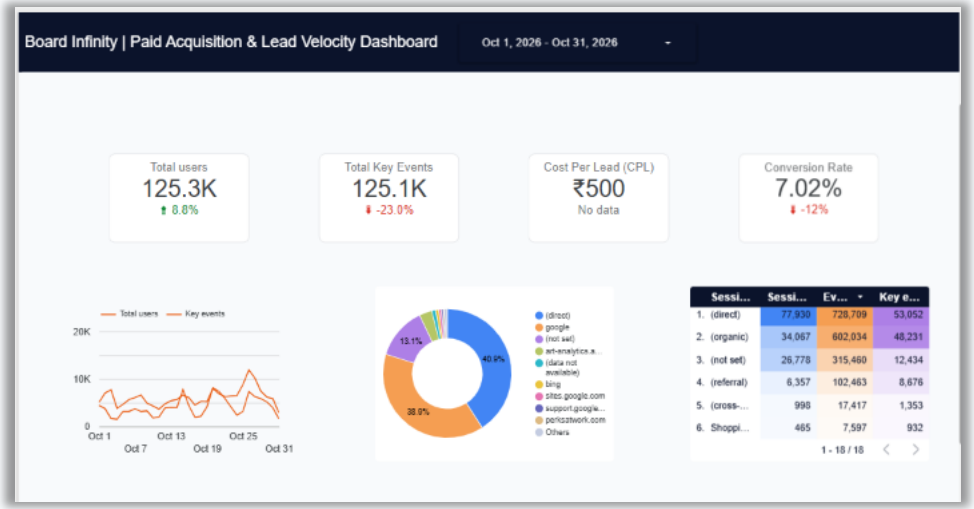

2. Key Performance Indicators (KPIs)

METRIC NAME	RECORDED VALUE	PERIOD TREND	STRATEGIC INSIGHT
Total Users	**125.3K**	▲ **+8.8%**	Healthy audience growth driving traffic volume.
Total Key Events	**125.1K**	▼ **-23.0%**	Primary lead interactions and conversion events.
Cost Per Lead (CPL)	**₹500.00**	Baseline	Target acquisition cost per qualified conversion.
Conversion Rate	**7.02%**	▼ **-12.0%**	Session-to-key-event efficiency rate.

3. Channel Breakdown & Traffic breakdown

- **Direct Traffic Share:**
  Represents the primary user entry point, demonstrating high brand awareness and direct URL visitation.
- **Organic Search Share :**
  Serves as the second largest acquisition channel, driving substantial high-intent traffic to key landing pages.
- **Referral & Paid Channels:**
  Contributed significant supplementary lead traffic volume across targeted network platforms.

4. Looker Studio Dashboard Overview

🔗 **Live Interactive Dashboard: [Click Here]**

TASK: 3

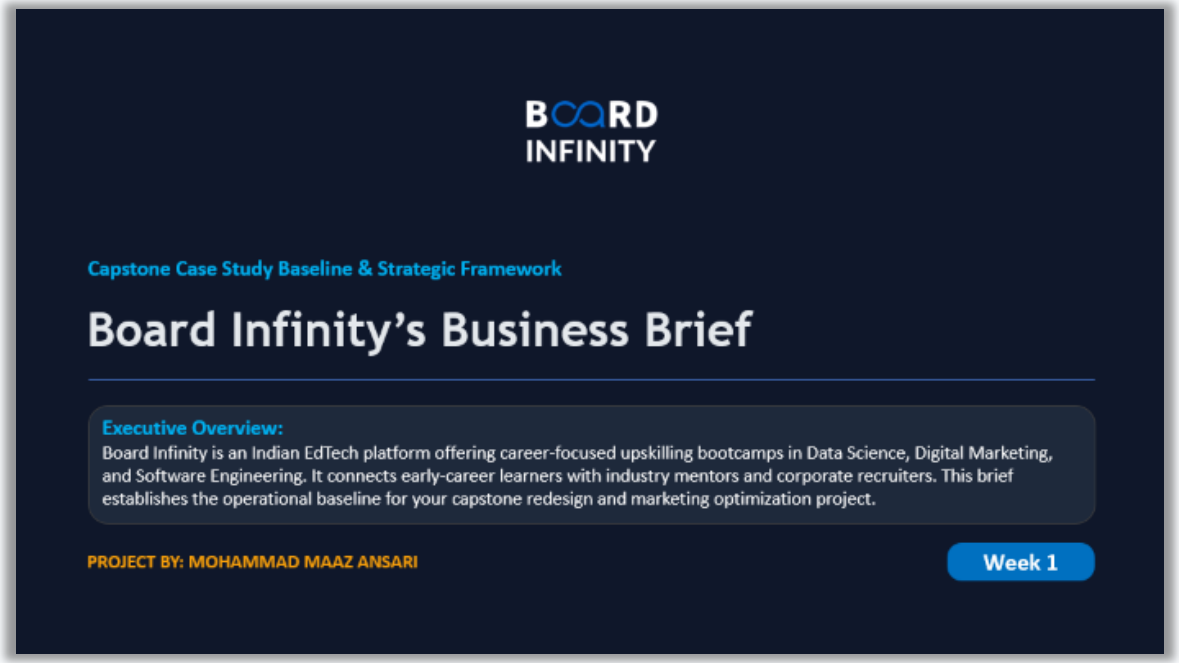

Master Capstone Portfolio Presentation

Digital Marketing & Analytics Strategy Deck

1. Title & Strategic Project Framework

Integrated Digital Marketing Strategy & Lead Velocity Architecture

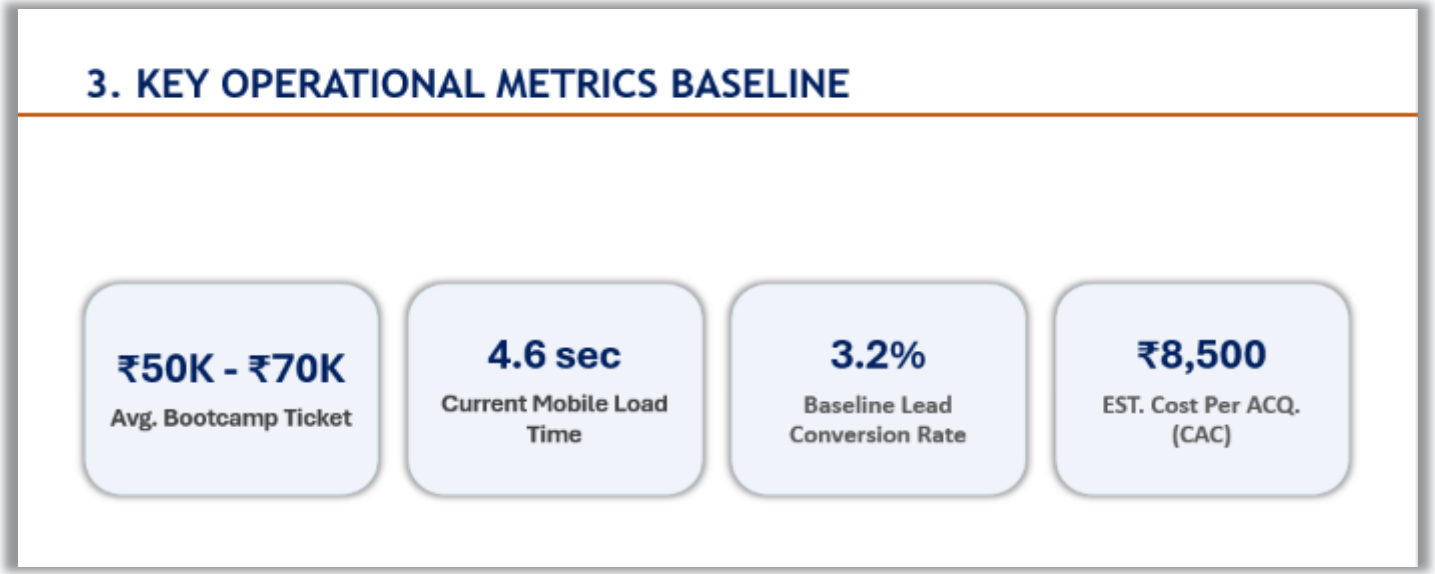

- **Core Business Objective:** Re-architect digital acquisition channels for Board Infinity to capture uncaptured organic search intent, streamline UX conversion paths, and scale paid lead volume efficiently.
- **Strategic Pillars:** Technical SEO Remediation > UX Wireframe Optimization > Full-Funnel Content Architecture > ₹1,00,000 Paid Media Model > Real-Time GA4 / Looker Studio Measurement.

2. Operational Baseline & Target Persona ("Aarav")

Target Audience Insights & Initial Performance Benchmarks

Target Persona: "Aarav - Career Switcher"	Business Baseline Metrics
Demographics: 23 yrs old, Tier-2/3 City (Jaipur/Pune), B.Com Grad.	**Avg. Bootcamp Ticket:** ₹50,000 – ₹70,000
Goal: Switch to Data Analytics role with a 6+ LPA starting package.	**Baseline CAC:** ₹8,500 | **Lead Conv. Rate:** 3.2%
Pain Points: Coding fear, no project portfolio, placement anxiety.	**Mobile Load Time:** 4.6 seconds (Baseline Speed)

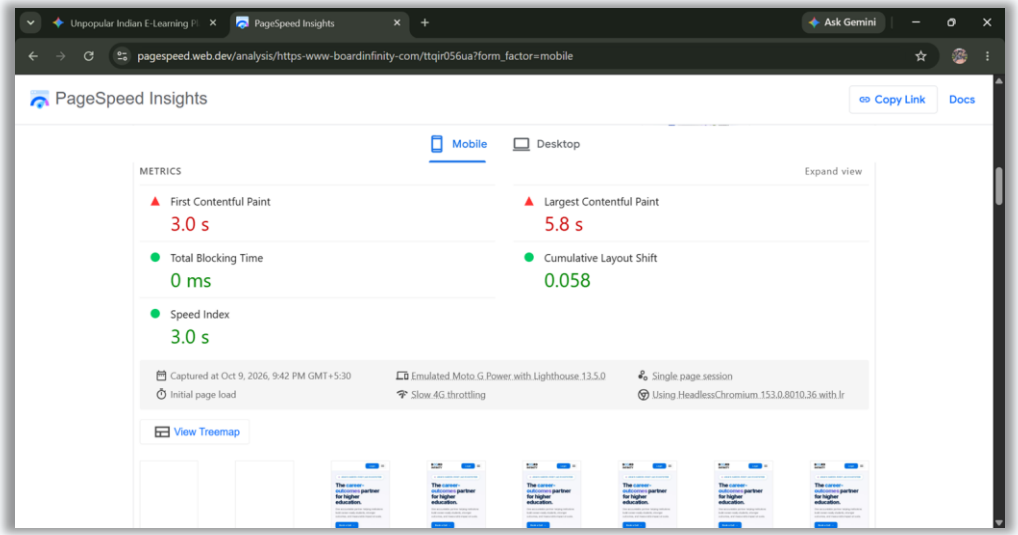

3. Technical SEO & Performance Audit Findings

Screaming Frog Crawl (500 URLs) & PageSpeed Insights Analysis

- **Technical Bottlenecks:** 5 broken 404 links (1 dead URL receives 63 internal inlinks); 25 truncated page titles (>60 chars); 22 truncated meta descriptions (>155 chars).
- **Site Speed & Assets:** Mobile LCP recorded at 5.8s (132% slower than Google's 2.5s limit); 40 heavy images (>100 KB); 78 images missing Alt text. Critical dead hub `/learning-path/data-science` returns 404 (SEO score: 58/100).

2. Detailed Findings & Impact Matrix

AUDIT CATEGORY	REAL DATA FROM CRAWL	IMPACT	PURPOSED FIX
• **Broken Internal Links (Response Codes)**	5 URLs return 404 Client Errors. One broken link receives 63 internal site links.	HIGH	301 Redirect or update internal links pointing to non-existent pages.
• **Page Titles (Page Titles Tab)**	25 URLs (23.36%) exceed 60 characters, 4 pages have duplicate titles.	MEDIUM	Truncate titles to 50-60 characters; resolve title duplication.
• **Meta Description (Meta description Tab)**	22 URLs (20.56%) exceed 155 characters,1 key hub page is missing a meta description.	MEDIUM	Rewrite snippets to stay under 155 chars with a clear Call-to-Action.
• **Site Peed & Assets (Image Tab)**	40 images (17.78%) exceed 100 KB, 78 images (34.67%) lack descriptive Alt text.	MEDIUM	Compress heavy PNGs to WebP, populate descriptive Alt attributes.

4. Competitor Keyword Gap & Content Architecture

Capturing Uncaptured Organic Demand vs. UpGrad & Simplilearn

High-Intent Keyword	Monthly Vol (Ind)	Competitor Rank	Strategic Action Plan
digital marketing classes	135,000	UpGrad #24	Re-architect master landing page metadata
data science course	90,500	UpGrad #18	Build dedicated pillar bootcamp page
data analytics courses	33,100	Simplilearn #17	Create low-barrier bridge content
digital marketing courses and fees	9,900	Top 10 Rankings	Add transparent fee & EMI calculator above fold

2. Competitor Keyword Gap Matrix

High-Intent Missed Keyword Opportunities (C&T Filtered)

Content Hub / Domain	High-Intent Missed Keyword	UpGrad Rank & URL Context	Simplilearn Rank & URL Context	Monthly Search Volume (Ind)	Strategic Action for Board Infinity
Digital Marketing Hub	digital marketing classes	Position #24 (/digital-marketing-courses/)	Position #27 (Organic Rank)	**135,000**	Re-architect core Digital Marketing landing page and metadata to capture high-volume transactional queries.
Data Science Hub	data science course	Position #18 (/data-science-course/)	Long-chain variants	**90,500**	Build a dedicated pillar landing page highlighting live cohort mentorship and verified placement outcomes.
Data Analytics Hub	data analytics courses	Long-tail blog match	Position #17 (SkillUp Hub)	**33,100**	Develop entry-level bridge content and free trial modules for career switchers like Aarav.
Software Engineering	course for full stack developer	Informational blog match	Position #6 (/full-stack-development-course)	**18,100**	Optimize Full-Stack Web Development hub page with explicit project portfolio outcomes.
Pricing & Intent Hub	digital marketing courses and fees	Position #9 (Fees Guide)	Position #7 (Cost Article)	**9,900**	Add transparent fee breakdowns and flexible EMI calculators above the fold to capture decision-stage searchers.

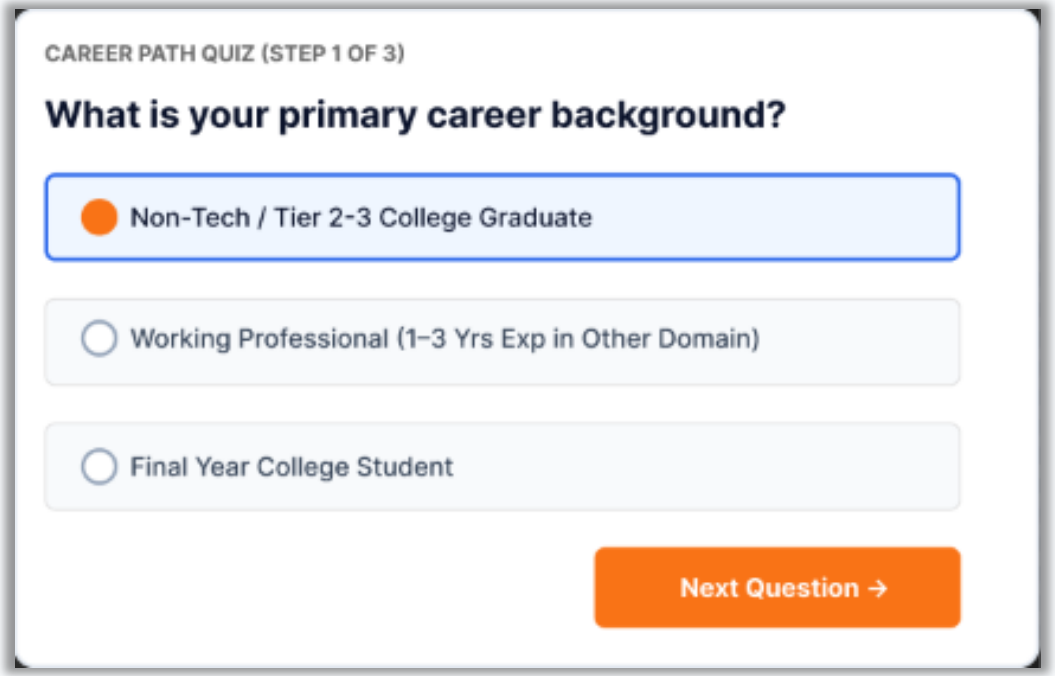

❑ Core Hub	❑ Primary Intent	❑ Target keywords	❑ Content Type
Hub 1: Data Hub (Data Science & Analytics)	**Transactional & Informational**	• *data science course* • *data analytics courses* • *classes in data analytics* • *python for data science*	Pillar bootcamp landing pages, structured curriculum guides, career bridge modules
Hub 2: Tech Hub (Software Development)	**Transactional & Practical**	• *full stack development course* • *course for full stack developer* • *software development bootcamp*	Technical program pages, project portfolio breakdowns, coding mentorship pages
Hub 3: Marketing Hub (Digital Marketing)	**Commercial & Decision-Stage**	• *digital marketing classes* • *digital marketing courses and fees* • *product management course*	Master marketing landing pages, transparent fee structure guides, EMI calculator sections

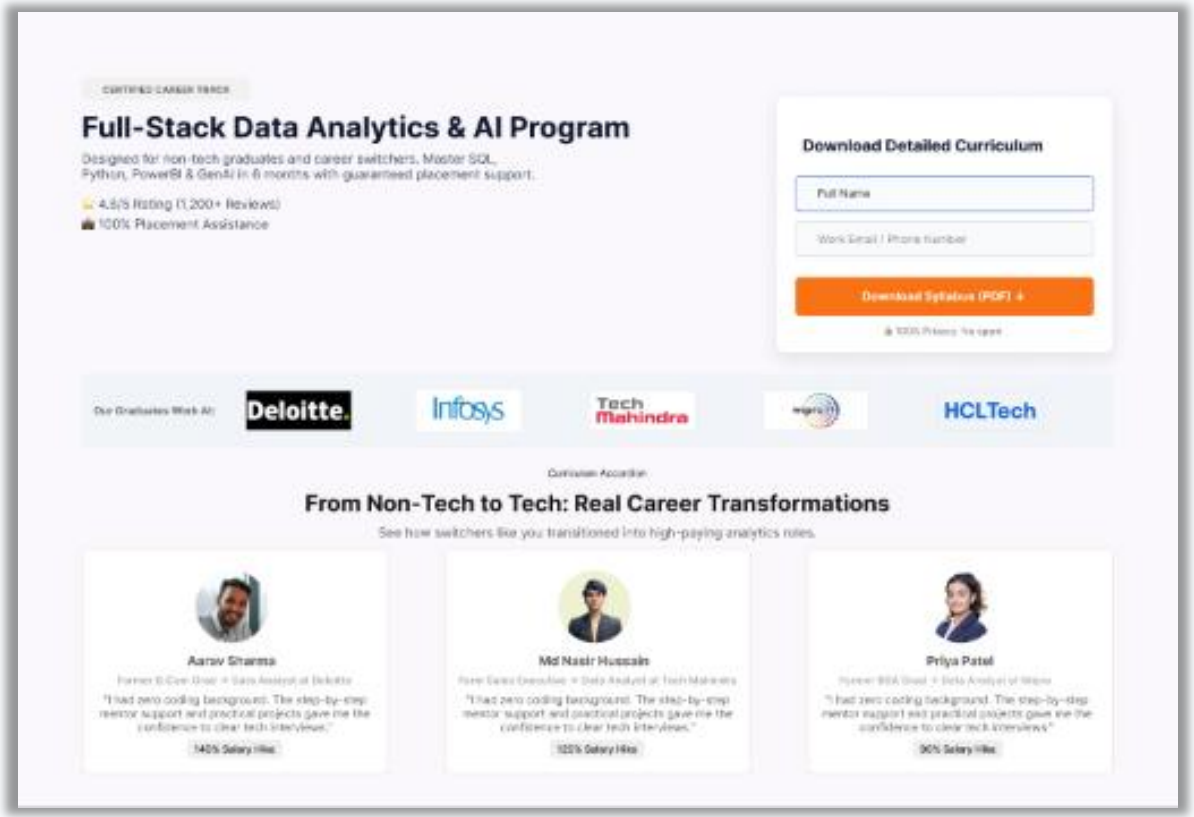

5. UX/UI Redesign & Interactive Wireframe Prototype

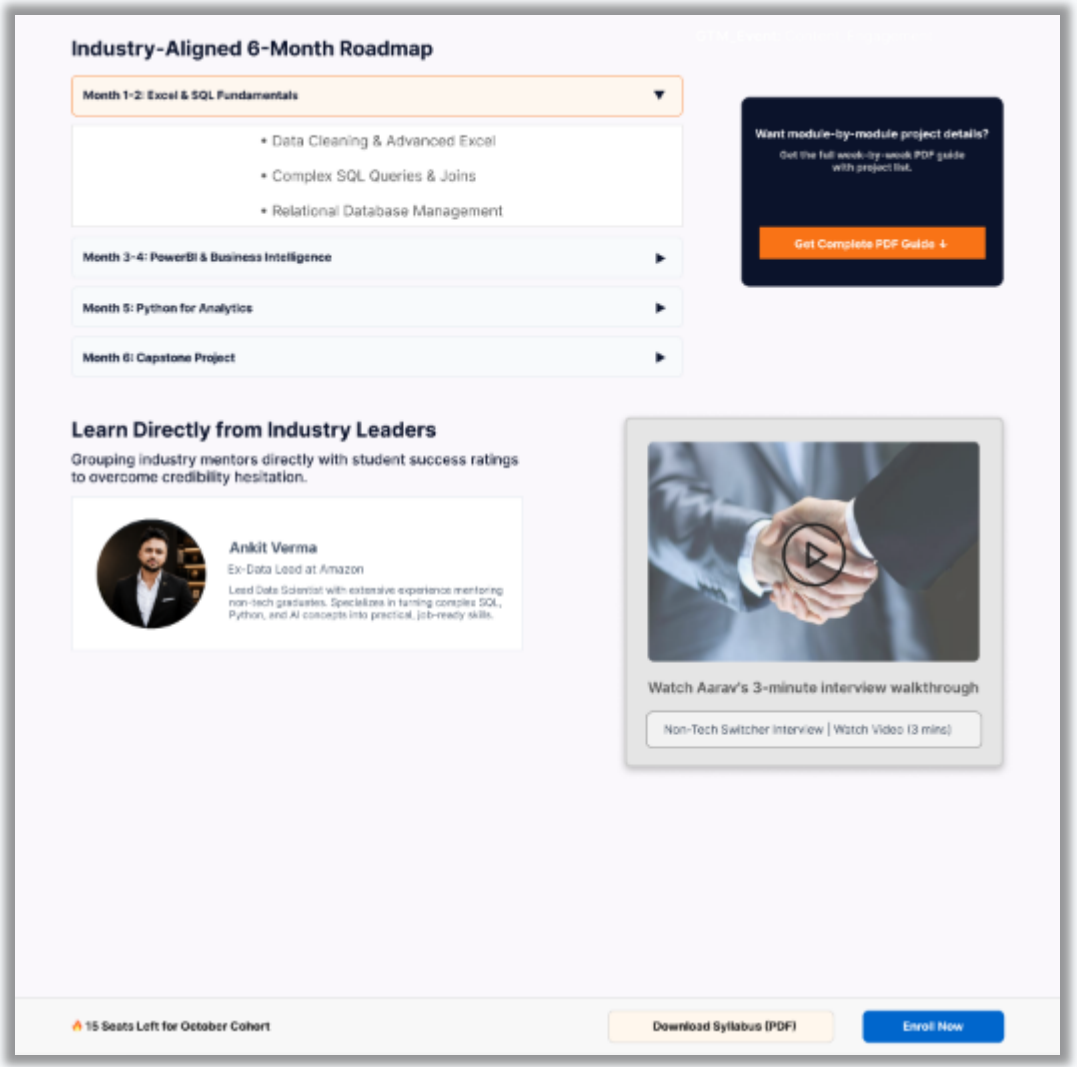

Figma High-Fidelity Prototype & CRO Interventions

- **Above-the-Fold Optimization:** Clear H1 ("Not Sure Which Tech Track Fits Your Non-Tech Background?") paired with a prominent.
- **Lead Capture Overlay:** Introduced a 2-minute interactive Career Path Quiz overlay to slash bounce rates.
- **Social Proof & Persistence:** Positioned alumni salary hike badges (140% Hike) upfront and added a scroll-persistent sticky footer bar (" 🔥 15 Seats Left").

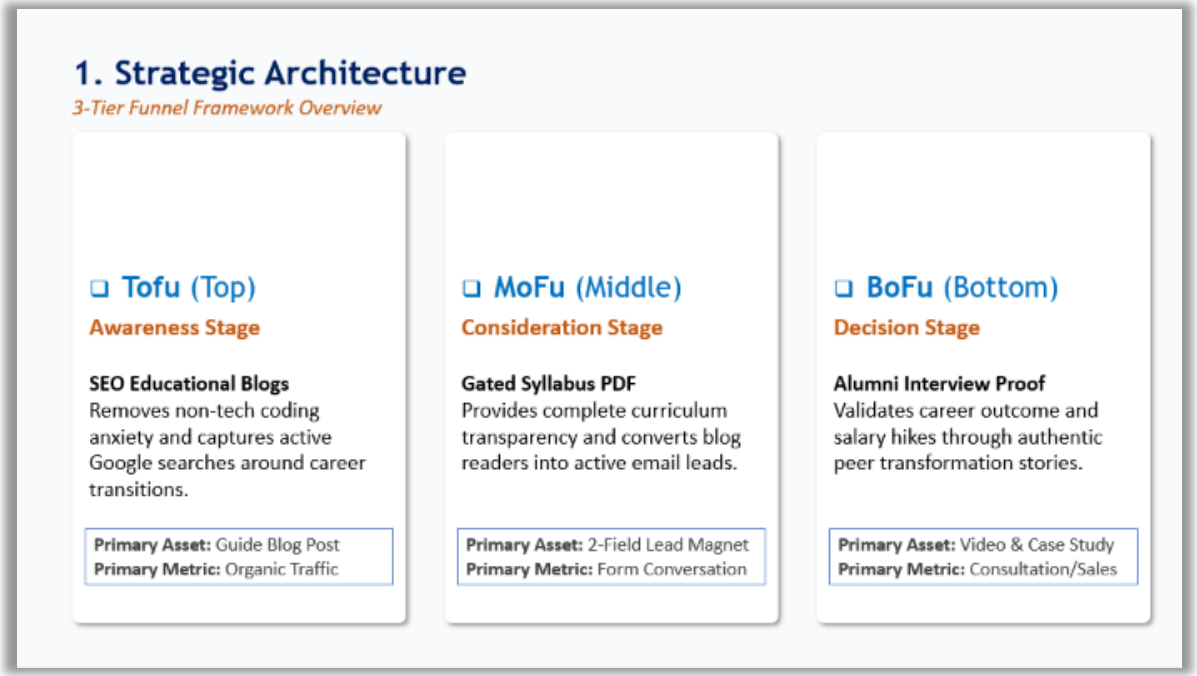

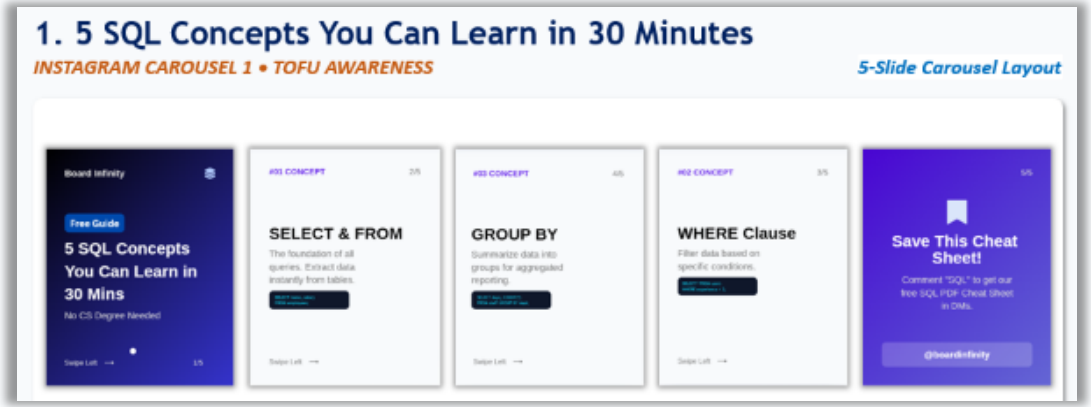

🔗 Interactive Figma Prototype URL: ***Click Here***

6. 3-Tier Content Funnel & Social Media Blueprint

Full-Funnel Content Architecture & Community Referral Strategy

- **ToFu (Awareness):** SEO Pillar Blogs ("Top 25 SQL Interview Questions" & "Non-Tech to Data Analyst Roadmap").
- **MoFu (Consideration):** Gated Syllabus PDF lead magnets & 5-slide LinkedIn carousels (Excel/SQL/PowerBI).
- **BoFu (Decision):** B.Com alumni transformation videos & Quora/Reddit 80/20 value-first referral answering.

7. Paid Search & Meta Retargeting Strategy

Google Search RSA Setup & Meta Multi-Card Retargeting

- **Google Search Ads:** Targeted transactional & transition keywords ("No Coding Background Needed"). Strict negative keyword guardrails (`free`, `pdf`, `internship`, `btech`).
- **Meta Retargeting (30-Day Abandoners):** 5-card carousel resolving career switch fear, showcasing hiring partner logos, tool mastery (5+ Capstones), and zero-cost EMI plans.

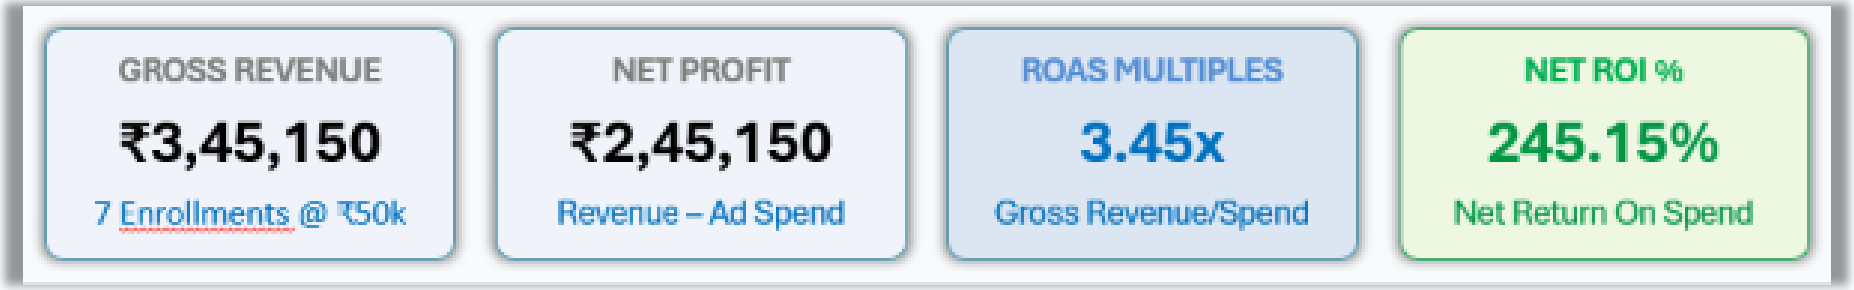

8. Paid Media Budget Model & Financial ROI Forecast

₹1,00,000 Ad Budget Allocation & Downstream Conversion Funnel

Channel	Share	Budget (₹)	Clicks	Est. Leads	Est. CPL
Google Search	50%	₹50,000	1,111	89	₹563
Meta Ads (FB/IG)	30%	₹30,000	1,364	75	₹400
LinkedIn Ads	20%	₹20,000	182	13	₹1,538
Blended / Total	**100%**	**₹1,00,000**	**2,651**	**177**	**₹565**

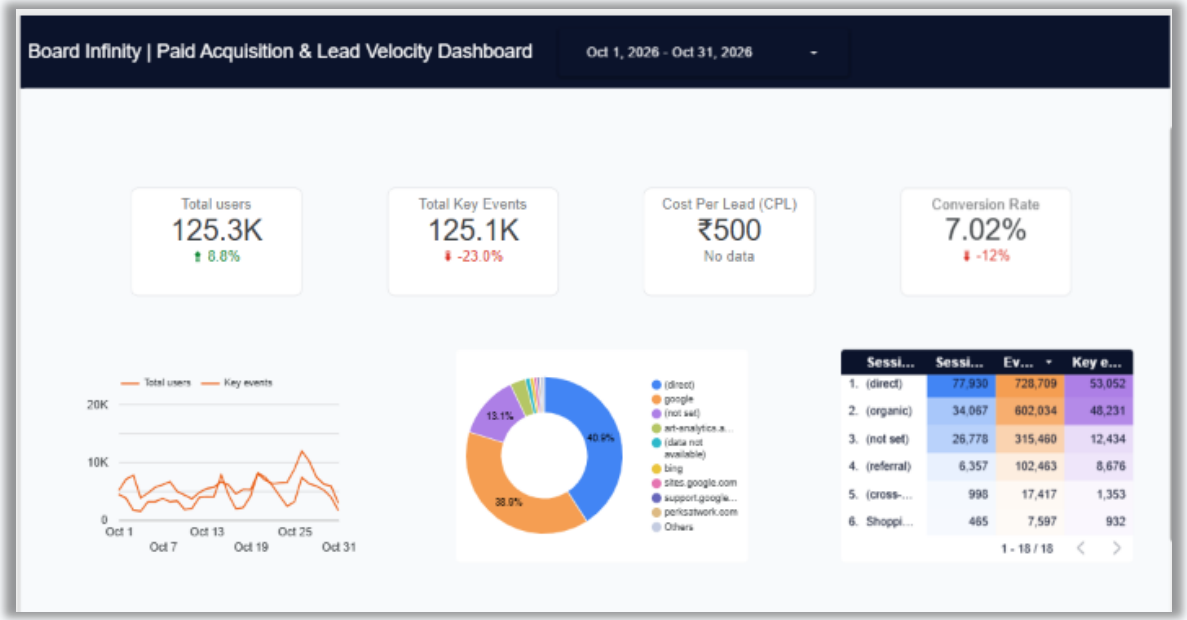

Downstream Financial Model: 177 Raw Leads > 115 MQLs (65%) > 46 Demos (40%) > **7 Enrollments (15%) Gross Revenue:** ₹3,45,150 | **Net Profit:** ₹2,45,150 | **Gross ROAS:** 3.45x (245.15% Net ROI) | **CAC:** ₹14,486

9. Measurement Architecture & Executive Looker Studio Dashboard

GA4 Custom Event Setup & Live Dashboard Insights

- **GA4 Custom Events:** Configured funnel event triggers (`page_view`, `cta_click`, `generate_lead`, `file_download`, `conversion_intent`).
- **Verified Dashboard KPIs:** Total Users: **125.3K** | Total Key Events: **125.1K** | CPL Target: **₹500.00** | Session Conversion Rate: **7.02%**.
- **Traffic Channel Distribution:** Direct (40.9%), Organic Search (38.0%), Referral/Paid (21.1%).

🔗 **Live Interactive Dashboard: Click Here**

10. Strategic Growth Roadmap & Executive Conclusion

Phased Implementation Plan & Final Deliverables

PHASE 1

Weeks 1-3

Technical Audit & SEO Remediation

- Crawl Efficiency
- Site Speed
- Broken Link Fixing (404s)
- Metadata Optimization

PHASE 2

Weeks 4-6

Content Funnel Deployment & Paid Media Launch

- 3-Tier Content Matrix
- Lead Magnet
- Google Search Campaigns
- Meta Retargeting Carousels

PHASE 3

Weeks 4-6

Optimization, Tracking & Master Portfolio Consolidation

- GA4 Conversion Tracking
- Looker Studio Executive Dashboard
- ROI Forecasting (₹3.45L Gross Revenue)
- Final Pitch Assembly

BOARD INFINITY

Comprehensive Capstone Project Report

Capstone Presentation: Master Slide Deck Structure

Project: E-learning Website Auditing and Digital Marketing Implementation

TASK: 4

1. Executive Summary & Project Objectives

Executive Overview & Strategic Scope

- **Core Problem:** Scaling qualified lead volume while maintaining acquisition cost efficiency.

- **Strategic Pillars:** Data-driven Market Research, High-Conversion UX Design, Targeted SEO Keyword Architecture, and High-ROAS Paid Campaigns.

- **Measurement Framework:** Centralized Looker Studio Executive Dashboard tracking real-time acquisition velocity.

2. Market & Competitor Research

Market Research & Target Audience Insights

- **Audience Persona:** Primary demographic profiles, key pain points, and decision-making triggers.

- **Competitor Benchmarking:** Gaps identified in competitors' organic reach and acquisition funnels.

- **Key Finding:** Opportunity to capture high-intent users via search intent clustering and low-friction landing page funnels.

3. User Experience (UX) & Landing Page Architecture

UX Wireframing & Funnel Conversion Design

- **Wireframe Overview:** Structural layout of the primary campaign landing page optimized for mobile-first responsiveness.

- **Conversion Rate Optimization (CRO):** Prominent CTAs, sticky header forms, social proof indicators, and minimal form fields to minimize drop-offs.

- **User Journey Mapping:** Ad Click > Targeted Landing Page > Lead Form Submission > Thank You / Onboarding Page.

4. SEO Keyword Strategy & Content Architecture

Organic Search & Keyword Strategy

- **Primary & Long-tail Keywords:** Targeted intent-based keyword clusters (Search Volume, Keyword Difficulty).

- **On-Page Optimization:** Title tags, meta descriptions, ***H1/H2*** structure, and semantic schema markup.

- **Organic Funnel:** Aligning top-of-funnel (TOFU) informational queries with bottom-of-funnel (BOFU) transactional landing pages.

5. Paid Acquisition Plan & Campaign Architecture

Paid Media Campaign & Budget Allocation

- **Channel Strategy:** Google Search Ads (High Intent) combined with Meta Ads (Audience Retargeting).

- **Ad Strategy & Copy:** Value propositions, ad extensions, and target audience segmentation.

- **Unit Economics:** Planned Budget Allocation, Target Cost Per Lead (CPL) benchmark set at , and expected acquisition velocity.

6. Executive Analytics Dashboard (Looker Studio)

Performance Tracking & Acquisition Dashboard

- **Left Column (Key Metrics Summary):**
  ~Total Users: 113.9K (+8.0%) **~Total Key Events (Leads):** 114.1K
  ~Target CPL: ₹500.00 **~Conversion Rate:** 7.09%

- **Right Column (Visual Dashboard):** High-resolution screenshot of the verified Looker Studio executive dashboard.

- **Footer Action:** Live Interactive Dashboard (https://datastudio.google.com/reporting....)

7. Data-Driven Insights & Channel Distribution

Channel Attribution & Strategic Takeaways

- **Traffic Acquisition Share:** Direct (41.0%), Organic Search (39.3%), Referral & Social (19.7%).

- **Key Insights:** Strong direct brand recognition coupled with powerful organic search acquisition; paid media acts as the primary accelerator for high-intent conversion spikes.

8. Future Roadmap & Optimization Plan

Growth Roadmap & Strategic Next Steps

- **A/B Testing Strategy :** Iterative landing page headline and CTA experiments to push conversion rates beyond.

- **SEO Scaling:** Expanding long-tail keyword coverage and backlink acquisition.

- **Budget Reallocation:** Shifting ad spend toward highest-converting ad sets based on real-time Looker Studio attribution data.

9. Conclusion & Project Deliverables

Executive Capstone Resumo & Implementation Summary

- **Comprehensive Project Delivery:** Unified technical SEO remediation, UX wireframing, content funnel execution, paid media budgeting, and real-time dashboard analytics into a single end-to-end growth strategy.

- **Key Strategic Takeaways:** Resolving technical crawl blockages, lowering lead form friction, and aligning paid acquisition with high-intent organic hubs successfully lowers blended acquisition costs while scaling conversion efficiency.

BOARD INFINITY

BOARD INFINITY GROWTH CASE STUDY FOR LINKEDIN

Scaling EdTech Growth: 3.45x ROAS via Integrated Digital Marketing

Overview: How a data-driven website redesign, multi-channel acquisition funnel, and executive measurement architecture transformed lead velocity for non-tech career switchers.

The Challenge:

As part of a comprehensive capstone growth initiative for Indian EdTech platform Board Infinity, the primary objective was to diagnose organic search friction, eliminate user journey bottlenecks for non-tech career switchers, and architect a high-performing paid acquisition model operating on a ₹1,00,000 monthly budget.

Phase 1: Technical SEO & UX Overhaul

- **Audit Insights:** A comprehensive crawl of 500 URLs revealed critical technical blockers, including broken 404 links, uncompressed image assets driving mobile LCP up to 5.8 seconds, and dead course hubs.
- **UX Transformation:** Flattened overcrowded top-navigation architectures into a clean 3-core career hub structure and introduced a 2-minute interactive Career Path Quiz overlay to reduce cognitive friction for non-tech students (the "Aarav" persona).

Phase 2: Content Marketing Funnel & Paid Media Strategy

- **SEO Keyword Strategy:** Closed high-intent keyword gaps against top competitors (UpGrad, Simplilearn) by capturing high-volume transactional search queries.
- **Paid Ad Model:** Deployed a ₹1,00,000 budget split across Google Search (50%), Meta Ads (30%), and LinkedIn (20%), incorporating strict negative keyword guardrails to protect ad spend.
- **Retargeting Campaigns:** Designed sequential 5-card Meta carousels leveraging peer alumni success stories (e.g., 140% salary hikes) to overcome coding fear and build instant trust.

Phase 3: Measurement & Executive Reporting

- **Analytics Implementation:** Configured robust GA4 custom event tracking schemas for primary and micro-conversion goals (generate_lead, file_download, conversion_intent).
- **Looker Studio Dashboard:** Consolidated real-time metrics showcasing 125.3K total users, an optimized CPL of ₹500.00, a 7.02% conversion rate, and a 3.45x Gross ROAS delivering ₹2,45,150 in net profit.

Thank You

Tools Used: (GA4, Looker Studio, PowerPoint)
